
Summary

I am a Full Stack Engineer with proficiencies in HTML, CSS, JavaScript, REACT and Node. I am also a 3-time Grammy Award-Winning Songwriter with over 20+yrs of experience in the music industry. The methodology and creativity that has allowed me to constantly create a completely new idea and maintain success in music, comes from the same place with which I create and design beautiful web apps that are supremely user-friendly.

Skills

Front End: JavaScript, React, React Hooks, HTML5, CSS3,

Back End: Node.js, Express, PostgreSQL

Additional Tools: Mocha, Chai, Github

Recent Projects

Flashcard App | [Flashcard](#)

- Built a Flashcard app that helps studying and information retention.
- Tech: JavaScript, HTML, REACT
